

Worcestershire Bowling Association

Bowls England, our National Governing Body, require every County and Club to have their own Safeguarding Policy. Wherever possible each club should have a Safeguarding Officer. If this is not possible then the club must appoint an Officer of the Club who will inform the County should a Safeguarding issue arise.

We have tried to make these documents 'user friendly' however, there are certain legal aspects that must be included.

Please find attached the following documents:

Duty of Care

Template 1 Safeguarding and Child Protection Policy

Template 2 Safeguarding Adults at Risk Policy

Template 11 Parents Carers Permission Photographs

Template 15 Code of Conduct for Club Members

Template 16 Code of Conduct for Club Officials and Volunteers

Template 19 Safeguarding Contacts

These documents can be adapted for your club. They should be made available for each member to see and sign. We appreciate this a daunting subject for a club and members may be reluctant to volunteer for a role. The County is here to provide help and support for you if needed.

Should you require more information then the contact details of the County Safeguarding Officers are included within the document.
